Annual Report

Letter from the President

Celebrating Tiny Tim's 50th Anniversary this year was a tremendous way to re-connect with old friends and create new ones. By focusing on our past, we are reminded of our roots and the foundations that were created to sustain such a successful endeavor. We are fortunate to have such a caring community, one that originally saw the need for Tiny Tim and one that has continued to support it over time.

The past year was a one of growth and change for Tiny Tim. It was the first full year spent in our wonderful new building. This was an enormously fulfilling experience, but one that wasn't without challenges.

With all growth comes change. As we spread our wings and stretched out to fill the building, the Board and staff worked to solve the problems of simply being bigger. Budgets are larger, communication more critical, opportunities almost limitless.

Your Board of Directors has spent a great deal of time working to put policies and procedures in place that will successfully address the challenges presented. One of the most significant accomplishments was the adoption of planned giving and endowment policies. In recognition of the support and trust the community places with Tiny Tim, the Board has taken steps to ensure that future support will be maximized and utilized in perpetuity on behalf of Tiny Tim. Additionally, we are taking measures that will strengthen and enhance our staff and our programs. We continue to listen to the community, and we are aware of the need to work to address their increasing needs as we move forward.

The Tiny Tim Center is a family. Community members, volunteers, staff, parents and students are all bolstered by our continuing efforts to work together to address the needs of our special children. I am honored to be again serving as the President of Tiny Tim. On behalf of the entire Board of Directors, I thank you for your continued interest and support.
